- Alzheimer's disease: and nursing homes, Jan./Feb. 27
- Amalgam(s)
- advantages over alternative materials, Jan./Feb. 13
 - bonded to pits and fissures, July/Aug. 199
 - complex, fracture resistance in, effect of combining Amalgambond Plus and pins on, Jan./Feb. 52
 - conventional, in primary teeth, longevity and anti-carries effects of, Jan./Feb. 45
 - correlation with urinary mercury levels, July/Aug. 188
 - extensive, can forestall need for cast crowns, July/Aug. 201
 - pregnant patient and pregnant personnel and, Nov./Dec. 264
 - tumors and, central nervous system, Nov./Dec. 295
- Amalgambond Plus combined with pins: effect on fracture resistance in complex amalgam restorations, Jan./Feb. 52
- Amlexanox paste: effect on healing and pain of aphthous ulcers, Jan./Feb. 44
- Amoxicillin
- for abscess, Mar./Apr. 102
 - for infection after dentoalveolar surgery, Sept./Oct. 219
- Analgesia
- for pain in endodontic patients, Mar./Apr. 61
 - self-administration after third molar surgery, Mar./Apr. 91
 - system, electronic, for placing restorations and inserting crowns or prostheses, Mar./Apr. 83
- Anesthesia
- general
 - dental care under, Jan./Feb. 12
 - increased use for anxious patients, July/Aug. 184
 - local
 - cartridge system for, and dosage safety, Jan./Feb. 29
 - long-acting, for pain in endodontic patients, Mar./Apr. 61
 - ophthalmic complications from, Sept./Oct. 210
- pregnant patient and pregnant personnel and, Nov./Dec. 264
 - for oral mucosal biopsies in general dental practice, Sept./Oct. 217
 - topical
 - intracanal, during pulpectomy, July/Aug. 162
 - for oral ulcers, July/Aug. 169
- Angiotensin-converting enzyme inhibitors: causing "scalded mouth syndrome," Jan./Feb. 16
- Angle's classification system: less reliable than Katz and British Incisor classification systems, Sept./Oct. 243
- Antibiotic(s)
- for abscess, Mar./Apr. 102
 - delivery, local, for periodontal disease, Sept./Oct. 221
 - oral, for acute peri-implant abscess, May/June 114
 - premedication in patients with joint replacement, new guidelines for, Jan./Feb. 9
 - preoperative, effect on implant failure rate, May/June 141
 - prophylaxis
 - heart murmur and, self-reported, Nov./Dec. 288
 - new recommendations for, Jan./Feb. 10
 - resistant bacteria, May/June 132
 - resistant infections, proposed solutions to, Sept./Oct. 252
 - use in pregnant patients, Nov./Dec. 264
- Anti-carries effect: of conventional glass ionomer and amalgam in primary teeth, Jan./Feb. 45
- Antigingivitis dentifrice: benefits of, July/Aug. 177
- Anti-inflammatory drugs
- nonsteroidal, for pain in endodontic patients, Mar./Apr. 61
 - in oral leukoplakia, Mar./Apr. 71
- Antimycotic drugs: in oral leukoplakia, Mar./Apr. 71
- Antitartar dentifrice: benefits of, July/Aug. 177
- Anxious patients: increased use of sedation and general anesthesia for, July/Aug. 184
- Apex locator, electronic
- Root ZX, *in vivo* evaluation of, May/June 138
 - SEM study of, Nov./Dec. 279
- Aphthous
- stomatitis, recurrent, inflammatory pathways in, Nov./Dec. 289
 - ulcer pain
 - effect of amlexanox paste on, Jan./Feb. 44
 - effect of diclofenac delivered in hyaluronan on, Mar./Apr. 89
- Apical extrusion: with rotational instrumentation, July/Aug. 186
- Apnea: sleep, recognition of, Nov./Dec. 262
- Appliances
- dental, for sleep apnea, Nov./Dec. 262
 - oral, for snoring, Nov./Dec. 263
- Approximal caries progression: bleeding on probing as marker for, May/June 135
- Argon-fluoride excimer laser removal: of subgingival calculus, Mar./Apr. 67
- ART Bond
- system, bond between tooth and indirect ceramic restoration strengthened by, May/June 126
 - with Z-100 or Brilliant Dentin not linked to periodontal damage, Sept./Oct. 248
- Artglass, Jan./Feb. 14
- Arthritis: and periodontal disease, Nov./Dec. 270
- Arthrotec: 1997 FDA approval of, Sept./Oct. 223
- Articulation: importance in prosthodontics, Sept./Oct. 225
- Aspirin: use in pregnant patients, Nov./Dec. 264
- Associates: and dental practice transition, Jan./Feb. 24
- Association agreement: factors to consider before signing, Jan./Feb. 25
- ATD Bridge Remover, Nov./Dec. 271
- Athletic shoes, Jan./Feb. 27
- Atridox: for periodontal disease, Sept./Oct. 221

Attachment

- creeping, after surgery, provides further root coverage, Jan./Feb. 46
- level changes, clinical, in periodontal tissues, correlation with radiographic changes, May/June 150
- loss
 - greater in teeth with pathologic migration, Mar./Apr. 93
 - smoking and, July/Aug. 197

Attachments

- denture, resin-bonded extracoronal removable partial, good results with, Mar./Apr. 96
- impressions for, overnight disinfection not advised for, Jan./Feb. 50

Attitudes

- dental, positive, determinants of, July/Aug. 185
- dentists', on child abuse and neglect, in California, July/Aug. 196

Autoclaves: steam, handpieces, Nov./Dec. 284

Autoclaving: effect on handpiece performance, July/Aug. 187

Avapro: 1997 FDA approval of, Sept./Oct. 223

Avulsed teeth: temporary storage of, low-fat milk for, Mar./Apr. 84

B

Bacteria

- antibiotic-resistant, May/June 132
- oral, mother-to-child transmission of, Jan./Feb. 14
- periodontal, intra-family transmission of, Jan./Feb. 18
- in periodontitis sites may be transmitted to implant sites, Mar./Apr. 84
- salivary, spouse's, not transmitted to patient after treatment, May/June 148
- in waterlines, dental unit, Mar./Apr. 66
- Bactericidal curettage: ultrasonic, for defect associated with palatogingival groove, Sept./Oct. 223
- Barotrauma: in scuba diving, May/June 113
- Basing: composite, effect on fracture resistance of porcelain inlays, July/Aug. 203
- Baycol: 1997 FDA approval of, Sept./Oct. 223
- Beck Depression Inventory: use in patients with chronic facial pain, May/June 121

Behavior

- problems, childhood, and fluoride exposure, Nov./Dec. 280
- unhealthy lifestyle, and denture stomatitis, May/June 146

Belleglass HP, Jan./Feb. 14

Benzocaine 20%

- containing OTC products for oral ulcers, July/Aug. 169
- gel, during pulpextomy, July/Aug. 162

Bien Air, Black Peel handpiece performance: effect of autoclaving on, July/Aug. 187

Bilaminar procedures: for deep recession defects, July/Aug. 198

Biocompatibility: of glass ionomer-based materials, May/June 117

Biologic transformation: dynamic, of periodontium to enhance esthetics, Mar./Apr. 72

Biomer: radiopacity of, July/Aug. 189

Biopsy: oral mucosal, in general dental practice, Sept./Oct. 217

Birth weight: low, and periodontal disease in expectant mothers, Jan./Feb. 14; Nov./Dec. 290

BIS-GMA: patient sensitization to, May/June 118

Bisphenol-A: does not leach from sealants, Mar./Apr. 85

Bitewings: panoramic survey with, good diagnostic yield from, Nov./Dec. 294

Black spaces: full veneer preparation for, May/June 112

Blacks

- adolescent, clinical features of early-onset periodontitis in, Mar./Apr. 94
- mortality from localized oral/pharyngeal cancer in, Sept./Oct. 242

Bleaching, Jan./Feb. 8

agents, effects on enamel, May/June 139

home

- for tooth color improvement, May/June 111
- vs. office, Nov./Dec. 259

nightguard vital, for removal of brown spots, Nov./Dec. 261

procedures, effect on teeth, restorations, and bonding, Nov./Dec. 260

regimens, different, optimizing esthetic results with, July/Aug. 165

Bleeding

- after dentoalveolar surgery, management of, Sept./Oct. 219
- on probing as marker for approximal caries progression, May/June 135

Blood

- exposures, percutaneous
 - in dentists, steady drop in, Mar./Apr. 68
 - know what to do before it occurs, Sept./Oct. 216

pressure

- check at end of dental visit, Mar./Apr. 88
- during dental procedures, July/Aug. 194

substitutes, current status of, May/June 156

Board examiners find operative and prosthodontic skills have decreased, Mar./Apr. 82

Body fluids: percutaneous exposure to, know what to do before it occurs, Sept./Oct. 216

Bond strength

- resin, effect of excess water removal method on, May/June 155
- shear, of one-bottle adhesives, Nov./Dec. 285

Bonding

agents

- dentin, for cervical tooth sensitivity, Sept./Oct. 214
- performance of, improving, Sept./Oct. 226

amalgam to pits and fissures, July/Aug. 199

bracket, air abrasion not suitable replacement for acid etching before, Mar./Apr. 89

to ceramic, alumina, after silica coating, Sept./Oct. 246

dual bonding technique strengthens bond between tooth and indirect ceramic restoration, May/June 126

effect of bleaching procedures on, Nov./Dec. 260

layer, intermediate, as key to sealant success, Sept./Oct. 224

process and success with direct composite resins, July/Aug. 175

system

- new generation, testing of, May/June 143
- single-component vs. two-component, Jan./Feb. 39

Bone

- cells, interactions between hormones and bone loss and, May/June 119
- growth in adolescents, and timing of implant placement, Sept./Oct. 214

loss, interactions between bone cells and hormones and, May/June 119

quality and quantity, one-step implant procedure in patients with, Jan./Feb. 37

Bowel disease

- inflammatory, and periodontal disease, Nov./Dec. 270
- oral conditions and, July/Aug. 170

Bracket bonding: air abrasion not suitable replacement for acid etching before, Mar./Apr. 89

Brain abscesses: and periodontal disease, Nov./Dec. 270

Brånemark implant

- dentures supported to, fixed partial, success rate, Sept./Oct. 238
- placement, one-step, in patients with good bone quality and quantity, Jan./Feb. 37

Breast-feeding: prolonged demand, and nursing caries, May/June 136

Bridge

- posterior resin-bonded
 - 5-year study of, Sept./Oct. 244
 - risk factors associated with poor survival of, Nov./Dec. 293

removal devices, Nov./Dec. 271

Brilliant Dentin: not linked to periodontal damage, Sept./Oct. 248

British incisor classification system: Angle's system less reliable than, Sept./Oct. 243

Bromfenac sodium: 1997 FDA approval of, Sept./Oct. 224

Bronchitis: chronic, and poor oral hygiene, Nov./Dec. 287

Brown spots: nightguard vital bleaching for removal of, Nov./Dec. 261

Brush: tooth, design, effect on plaque removal, Jan./Feb. 50

Brushing technique: effect on plaque removal, Jan./Feb. 50

Bruxism: sleep, related to periodic sleep disturbances, Sept./Oct. 237

Bupivacaine: for pain in endodontic patients, Mar./Apr. 61

Bur(s)

- diamond, Sept./Oct. 211
- grits, different, effects on pulpal chamber during ultrahigh-speed tooth preparation, Nov./Dec. 287

preparation for sealants produces lowest microleakage, Sept./Oct. 243

Burning mouth syndrome

- causes of, Jan./Feb. 17
- wearers of complete dentures, management of, May/June 125

Buying: office space, how to decide between leasing and, Nov./Dec. 275

C

Calcium

- channel blockers causing gingival hyperplasia, July/Aug. 172

hydroxide for healing in nonvital immature permanent teeth, Mar./Apr. 64

sulfate in management of defect associated with palatogingival groove, Sept./Oct. 223

Calculus, subgingival

- as predictor of early-onset periodontitis, July/Aug. 197
- removal, lasers ineffective for, Mar./Apr. 67

Can: aluminum, discussion of, Jan./Feb. 28

Canal(s)

- centering, comparison of instrumentation techniques for, Jan./Feb. 32

root, multiple, importance of identifying, Jan./Feb. 6

Cancer

- gastrointestinal, linked to oral cancer, July/Aug. 170
- head and neck, pain in patients with history of, July/Aug. 195

oral

- gastrointestinal cancer linked to, July/Aug. 170
- genetic events contributing to, Jan./Feb. 15

localized, mortality from, in blacks vs. whites, Sept./Oct. 242

screening for, following standard of care in, Nov./Dec. 266

signs and symptoms of, Nov./Dec. 266

understanding roots of, and treatment approaches, Sept./Oct. 217

pharyngeal, localized, mortality from, in blacks vs. whites, Sept./Oct. 242

tongue, squamous cell, and cinnamon gum use, Nov./Dec. 267

Candida: in denture plaque, role in caries and periodontitis, Sept./Oct. 219

Canines: maxillary, improving esthetics of partial denture clasp for, Jan./Feb. 19

Capping: direct pulp, with CO₂ laser, Sept./Oct. 234

Capsaicin: in atypical odontalgia, May/June 147

Captopril: causing "scalded mouth syndrome," Jan./Feb. 16

Carbamide peroxide bleaching

- effect on restorative materials, Nov./Dec. 260
- esthetic results with, July/Aug. 166

Carbon dioxide laser

- in pulp capping, direct, Sept./Oct. 234
- removal of subgingival calculus, Mar./Apr. 67

Carcinoma (see Cancer)

Cardiac (see Heart)

- Care
- dental
 - under anesthesia, general, Jan./Feb. 12
 - pediatric preventive, physician's viewpoint, Mar./Apr. 103
 - home, for peri-implant complications, May/June 114
 - managed care (*see* Managed care)
 - postoperative, after tetracycline fiber placement by general dentists, May/June 122
 - terminating, importance of following guidelines when, Mar./Apr. 76
 - Careers: research, how can we encourage dental students to pursue? July/Aug. 181
 - Caries
 - approximal, progression, bleeding on probing as marker for, May/June 135
 - early, nonsurgical approach to management, May/June 124
 - effects of fluoride levels on, in school children, Sept./Oct. 236
 - inhibition by fluoride released from restorative materials, Jan./Feb. 40
 - management, and dental education, Jan./Feb. 23
 - nursing, and prolonged demand breast-feeding, May/June 136
 - occlusal, prevention by sealing fissures with Nd:YAG laser, Nov./Dec. 285
 - prevalence in children, reduced, continuance into adulthood, Nov./Dec. 259
 - reduction with fluoride gel, July/Aug. 187
 - role of *Candida* in denture plaque in, Sept./Oct. 219
 - sealed teeth with, computer imaging of, Jan./Feb. 53
 - Cariostatic sealed restorations: long-term report on, May/June 152
 - Cariou lesions
 - deep, stepwise excavation of, Sept./Oct. 241
 - root surface, Er:YAG laser for removal of, Sept./Oct. 239
 - Carriers: in endodontic retreatment, Mar./Apr. 62
 - Cartridge system: local anesthetic, and dosage safety, Jan./Feb. 29
 - Cast crowns: extensive amalgam restorations can forestall need for, July/Aug. 201
 - Cell(s)
 - bone, interactions between hormones and bone loss and, May/June 119
 - squamous cell carcinoma of tongue, and cinnamon gum use, Nov./Dec. 267
 - Cement(s)
 - chemically-cured, radiopacity of, July/Aug. 189
 - denture removal and, partially loose fixed, Nov./Dec. 271
 - dual-cured, radiopacity of, July/Aug. 189
 - glass ionomer (*see* Glass, ionomer)
 - It, radiopacity of, July/Aug. 189
 - resin, post retention with, Jan./Feb. 51
 - thickness under crowns, Nov./Dec. 292
 - zinc phosphate, post retention with, Jan./Feb. 51
 - Cementum: exposed, and fluoride, May/June 123
 - Central nervous system tumors: and radiography and amalgam, Nov./Dec. 295
 - Ceramco Colorlogic porcelain veneers: 4-year results, Sept./Oct. 236
 - Ceramic
 - advantages of amalgam over, Jan./Feb. 13
 - all-ceramic crowns
 - choosing between metal-ceramic and, July/Aug. 173
 - dentin-bonded, July/Aug. 164
 - alumina, silica-coated, bonding to, Sept./Oct. 246
 - crown, dentin-bonded
 - fracture resistance of, effect of luting system on, May/June 153
 - for patients with tooth wear or hypoplastic defects, May/June 127
 - glass-ceramic inlays, pressed, results with, Mar./Apr. 99
 - inlays, 6-year follow-up, Sept./Oct. 249
 - metal-ceramic crown, choosing between all-ceramic and, July/Aug. 173
 - optimized polymer esthetic restorations, Mar./Apr. 68
 - restoration, indirect, bond between tooth and, strengthening by dual bonding technique, May/June 126
 - Cervastatin: 1997 FDA approval of, Sept./Oct. 223
 - Cervical
 - lesions, noncarious, complex etiology of, Sept./Oct. 248
 - tooth sensitivity, management of, Sept./Oct. 214
 - Chemical
 - blood substitutes, current status of, May/June 156
 - elements, naming of, Mar./Apr. 81
 - vapor sterilizers vs. steam autoclaves for handpieces, Nov./Dec. 284
 - Chemically dependent dentists: ethical questions surrounding, May/June 129
 - Chemoclave: for sterilization of handpieces, Nov./Dec. 284
 - Chemoprevention: of oral leukoplakia, Mar./Apr. 71
 - Children
 - abuse and neglect of, California dentists' knowledge and attitudes on, July/Aug. 196
 - adolescent (*see* Adolescent)
 - behavior problems in, and fluoride exposure, Nov./Dec. 280
 - caries prevalence in, reduced, continuance into adulthood, Nov./Dec. 259
 - dental care in, preventive, physician's viewpoint, Mar./Apr. 103
 - dental services for, Medicaid, Washington pilot program to increase, Mar./Apr. 79
 - dental trauma in, what patients remember after, Jan./Feb. 33
 - mother-to-child transmission
 - of oral bacteria, Jan./Feb. 14
 - of streptococci, mutans, prevention with chlorhexidine and fluoride mouthrinses during pregnancy, Nov./Dec. 279
 - orthodontic intervention in, early, appropriateness of, May/June 120
 - school, effects of fluoride levels on caries and fluorosis in, Sept./Oct. 236
 - young, fluoride toxicity from home-use dental products in, Mar./Apr. 91
 - Chlorhexidine
 - in full-mouth disinfection, effect on clinical and microbiologic status, May/June 150
 - rinse
 - perioperative, in prevention of dry socket after third molar extraction, July/Aug. 192
 - during pregnancy, in prevention of mother-to-child transmission of mutans streptococci, Nov./Dec. 279
 - in prevention of drug-induced gingival hyperplasia, July/Aug. 172
 - subgingival, for acute peri-implant abscess, May/June 114
 - topical, for peri-implant mucositis, May/June 114
 - Chloroform toxicity: during endodontic retreatment, Sept./Oct. 234
 - Choice: radiopacity of, July/Aug. 189
 - Cinnamon gum use: and squamous cell carcinoma of tongue, Nov./Dec. 267
 - 13-*cis*-retinoic acid: in oral leukoplakia, Mar./Apr. 71
 - Clasps
 - denture, partial, for maxillary canines, improving esthetics of, Jan./Feb. 19
 - titanium-nickel, for removable prostheses, May/June 152
 - Clearfil
 - Liner Bond adhesive system in Class V lesions, Mar./Apr. 98
 - Posterior, Sept./Oct. 216
 - Ray Posterior, overextended, radiographs of, Sept./Oct. 250
 - Clindamycin: for abscess, Mar./Apr. 102
 - Clinical
 - changes in periodontal tissues, correlation with radiographic changes, May/June 150
 - status, effect of full-mouth disinfection on, May/June 150
 - Clinicians: signs that could lead clinicians to suspect malignancy, Sept./Oct. 212
 - Clobetasol: topical, in oral lichen planus, follow-up study, May/June 146
 - CO₂ laser
 - in pulp capping, direct, Sept./Oct. 234
 - removal of subgingival calculus, Mar./Apr. 67
 - Codeine
 - for pain in endodontic patients, Mar./Apr. 61
 - use in pregnant patients, Nov./Dec. 264
 - Colgate Total
 - benefits of, July/Aug. 177
 - effect on periodontal disease progression, May/June 149
 - FDA approval of, 1997, Sept./Oct. 224
 - preventive properties of, in adolescents, Sept./Oct. 251
 - Collimation: rectangular, underutilization of, Nov./Dec. 294
 - Colorlogic porcelain veneers: 4-year results, Sept./Oct. 236
 - Communicating shade selection for optimum esthetic results, Sept./Oct. 213
 - Compensation reviews: for dental employees, July/Aug. 178
 - Compomers
 - evaluation of, Sept./Oct. 220
 - sealing ability of, July/Aug. 203
 - Composite(s)
 - basing effect on fracture resistance of porcelain inlays, July/Aug. 203
 - Class II, overextended, radiographs of, Sept./Oct. 250
 - flowable, first-generation, mechanical properties and flow of, Sept./Oct. 240
 - resin (*see* Resin, composites)
 - Computer(s)
 - in dental office, and "millennium bug", Nov./Dec. 274
 - everything you wanted to know but were afraid to ask about, Mar./Apr. 58
 - imaging of scaled teeth with caries, Jan./Feb. 53
 - printer, making clear denture labels with computer printer and photocopier, July/Aug. 175
 - Concise: bisphenol-A does not leach from, Mar./Apr. 85
 - Cones: silver, in endodontic retreatment, Mar./Apr. 62
 - Connective tissue graft
 - for deep recession defects, July/Aug. 198
 - subepithelial, in combined surgical procedures for root coverage, July/Aug. 171
 - Consolidation advantage, Mar./Apr. 78
 - Construction: complete denture, faults in, correlated with patient complaints, Sept./Oct. 245
 - Contact stomatitis: irritant, review of, Nov./Dec. 268
 - Copolymer/triclosan dentifrice
 - for adolescents, preventive properties of, Sept./Oct. 251
 - effect on periodontal disease progression, May/June 149
 - Core
 - build-ups in restoring endodontically treated teeth, Mar./Apr. 75
 - and post combinations tested for retention, Sept./Oct. 250
 - Corgard: causing "scalded mouth syndrome", Jan./Feb. 16
 - Corticosteroids
 - in oral lichen planus, follow-up study, May/June 146
 - perioperative, in prevention of postoperative trismus, Jan./Feb. 22
 - Cost
 - of air abrasion devices, July/Aug. 168
 - of delivering implants vs. complete dentures, Nov./Dec. 281
 - low-cost ways of marketing the dental practice, Nov./Dec. 274
 - of telescopes, surgical, Nov./Dec. 264
 - Covenants: restrictive, in dental practice transition, Jan./Feb. 24
 - Covering agents: for oral ulcers, July/Aug. 169
 - CPAP: for sleep apnea, Nov./Dec. 262
 - Creeping attachment: after surgery provides further root coverage, Jan./Feb. 46
 - Crest
 - Gum Care, July/Aug. 177
 - Multi-Care, July/Aug. 177
 - Crown(s)
 - all-ceramic
 - choosing between metal-ceramic and, July/Aug. 173
 - dentin-bonded, July/Aug. 164
 - cast, extensive amalgam restorations can forestall need for, July/Aug. 201

cement thickness under, Nov./Dec. 292
 ceramic, dentin-bonded
 fracture resistance of, effect of luting system on, May/June 153
 for patients with tooth wear or hypoplastic defects, May/June 127
 impressions for, overnight disinfection not advised for, Jan./Feb. 50
 insertion, electronic analgesia system for, Mar./Apr. 83
 metal-ceramic, choosing between all-ceramic and, July/Aug. 173
 CrystalEssence: mechanical properties and flow of, Sept./Oct. 240
 Curettage: ultrasonic bactericidal, for defect associated with palatogingival groove, Sept./Oct. 223
 Curing: increased, composite resin wear resistance enhanced by, Jan./Feb. 40
 Custom guided tissue healing: for soft tissue profiles around implant sites, Mar./Apr. 64
 Cutting patterns: of NiTi files, July/Aug. 185
 Cyclosporine-induced gingival hyperplasia: management of, July/Aug. 172

D

Dam: nonlatex, made from vinyl glove, Jan./Feb. 11
 Debate: formal, using learning tool as, May/June 134
 Debonding: of porcelain veneers, Nov./Dec. 261
 Débridement: alone vs. with single-dose metronidazole, Jan./Feb. 47
 Defender: bisphenol-A does not leach from, Mar./Apr. 85
 Delton: bisphenol-A does not leach from, Mar./Apr. 85
 Demographics: and participation in managed care systems, May/June 130
 Dens evaginatus: managing teeth with, July/Aug. 163
 Dent Tal Ez handpiece performance: effect of autoclaving on, July/Aug. 187
 Dental
 anomalies in Down syndrome, Jan./Feb. 21
 appliances for sleep apnea, Nov./Dec. 262
 attitudes, positive, determinants of, July/Aug. 185
 board examiners find operative and prosthodontic skills have decreased, Mar./Apr. 82
 care
 under anesthesia, general, Jan./Feb. 12
 pediatric preventive, physician's viewpoint, Mar./Apr. 103
 dam, nonlatex, made from vinyl glove, Jan./Feb. 11
 devices, ultrasonic and electrosurgical, and cardiac pacemakers, May/June 144
 education
 continuing, Nov./Dec. 257
 reorienting course to focus on prevention, Jan./Feb. 23
 employees (see Staff)
 fear, managing via intrasedative process, Sept./Oct. 233
 hygiene practice, independent, encourages visits to dentists, Jan./Feb. 25
 hygienists
 ergonomic risk for injury, July/Aug. 191
 status in U.S. practices, Jan./Feb. 26
 implications of hepatitis C virus, Nov./Dec. 269
 injections
 fear of, Jan./Feb. 31
 pain of, TENS for, Nov./Dec. 278
 laboratories
 equipment noise in, effect on hearing, July/Aug. 190
 three-dimensional visual tools help provide more complete information to, July/Aug. 176
 office (see Office, dental)
 patient (see Patient)
 practice (see Practice, dental)
 problems, diving-related, May/June 113
 procedures
 visualization during, surgical telescopes enhance, Nov./Dec. 264
 vital signs and patient safety during, July/Aug. 194

products
 home-use, fluoride toxicity from, in young children, Mar./Apr. 91
 marketing of, Nov./Dec. 256
 new, how to evaluate and decide if they're right for your practice, Mar./Apr. 76
 profession, ethical limits of, Nov./Dec. 256
 professionals, effect of mercury vapor exposure on, Jan./Feb. 41
 service capacity, and workload, Sept./Oct. 231
 services, Medicaid child, Washington pilot program to increase, Mar./Apr. 79
 sites on Internet, Mar./Apr. 77
 staff (see Staff)
 students, how can we encourage them to pursue research careers? July/Aug. 181
 team, becoming a leader in, Sept./Oct. 232
 trauma
 childhood, what patients remember after, Jan./Feb. 33
 incisal edge reattachment for, Nov./Dec. 272
 treatment
 modifications in stroke patients, Mar./Apr. 73
 for pain in endodontic patients, Mar./Apr. 61
 painful, anticipation may increase pain threshold, Mar./Apr. 90
 unit waterlines, bacteria in, Mar./Apr. 66
 visit, checking blood pressure at end of, Mar./Apr. 88
 workers, immediate type I hypersensitivity to latex in, May/June 143
 Dentifrice(s)
 other than fluoride, benefits of, July/Aug. 177
 triclosan/copolymer
 for adolescents, preventive properties of, Sept./Oct. 251
 effect on periodontal disease progression, May/June 149
 Dentin
 -bonded crowns
 all-ceramic, July/Aug. 164
 ceramic, fracture resistance of, effect of luting system on, May/June 153
 bonding agents for cervical tooth sensitivity, Sept./Oct. 214
 exposed, and fluoride, May/June 123
 Dentist(s)
 acromegaly and, July/Aug. 169
 chemically dependent, ethical questions surrounding, May/June 129
 forensic, Nov./Dec. 277
 general
 implant treatment in, single-tooth, outcomes of, Nov./Dec. 281
 tetracycline fiber placement by, May/June 122
 involvement in tobacco use cessation, May/June 140
 knowledge and attitudes about child abuse and neglect, in California, July/Aug. 196
 percutaneous injuries in, steady drop in, Mar./Apr. 68
 visits to, independent hygiene practice encourages, Jan./Feb. 25
 Dentistry
 antibiotic prophylaxis in, new recommendations for, Jan./Feb. 10
 clinical, using air abrasion in, Jan./Feb. 20
 male advantage in, July/Aug. 179
 prehistoric, Mar./Apr. 80
 Dentoalveolar
 abscess, antibiotics in, Mar./Apr. 102
 surgery, managing complications after, Sept./Oct. 218
 Dentomycin Dental Gel: for periodontal disease, Sept./Oct. 221
 Denture(s)
 adhesive pastes, patient preferences, Mar./Apr. 96
 complete
 construction faults correlated with patient complaints, Sept./Oct. 245
 cost of, vs. implants, Nov./Dec. 281
 sequelae of, management, May/June 125
 for stroke patients, Mar./Apr. 74

implant supported, in patients with Sjögren's syndrome, Mar./Apr. 65
 labels, clear, made with computer printer and photocopier, July/Aug. 175
 new, soreness with, alleviation by gradual reintroduction of hard foods, Mar./Apr. 94
 overdentures anchored to single implants, prospective study of, Jan./Feb. 52
 partial
 clasp, for maxillary canines, improving esthetics of, Jan./Feb. 19
 fixed, immediate, for replacement of missing anterior tooth, July/Aug. 174
 fixed, implant-supported, success rate, Sept./Oct. 238
 fixed, impressions for, overnight disinfection not advised for, Jan./Feb. 50
 fixed, long-term survival of, July/Aug. 200
 fixed, loose, removal of, Nov./Dec. 271
 fixed, resin-bonded, good results with, Mar./Apr. 96
 fixed, resin-bonded, short term use of direct-bonded pontic followed by placement of, Nov./Dec. 271
 fixed, survival, meta-analysis of, Sept./Oct. 246
 removable, acrylic, for immediate replacement of missing anterior tooth, July/Aug. 174
 removable, resin-bonded extracoronary attachments, good results with, Mar./Apr. 96
 removable, technical quality of, association with patient satisfaction measures, May/June 151
 in stroke patients, Mar./Apr. 74
 plaque, *Candida* in, role in caries and periodontitis, Sept./Oct. 219
 stomatitis and unhealthy lifestyle behaviors, May/June 146
 Depression: and chronic facial pain, May/June 121
 Dermatitis
 hand, occupational, few cases are related to latex allergy, July/Aug. 189
 perioral, due to BIS-GMA, May/June 118
 -susceptible staff, reduction of occupational exposure to latex in, July/Aug. 167
 Desensitron, Sept./Oct. 214
 Diabetes mellitus
 patients, self-reported heart murmur in, and prophylactic antibiotic use, Nov./Dec. 288
 periodontal disease and, Nov./Dec. 269
 Diamond burs, Sept./Oct. 211
 Diastema: full veneer preparation for, May/June 112
 Diclofenac: delivered in hyaluronan relieves aphthous ulcer pain, Mar./Apr. 89
 Dicor: in bonded all-ceramic crowns, July/Aug. 164
 Dietary habits: unhealthy, and denture stomatitis, May/June 146
 Digital radiography: for estimation of working length, Jan./Feb. 34
 Discoloration: full veneer preparation for, May/June 112
 Disinfectants: and antibiotic-resistant bacteria, May/June 132
 Disinfection
 full-mouth, effect on clinical and microbiologic status, May/June 150
 overnight, of impressions, Jan./Feb. 50
 Disk displacement: nonreducing temporomandibular joint, resolution within one year without treatment, Mar./Apr. 99
 Dispersalloy: failure of, Sept./Oct. 247
 Distress: psychiatric, in dental patients, Jan./Feb. 31
 Diving-related dental problems, May/June 113
 Down syndrome: systemic and oral manifestations of, Jan./Feb. 21
 Drug(s)
 anti-inflammatory, in oral leukoplakia, Mar./Apr. 71
 antimycotic, in oral leukoplakia, Mar./Apr. 71
 approvals in 1997, Sept./Oct. 223
 company abuse, July/Aug. 182
 -induced gingival hyperplasia, management of, July/Aug. 172
 information on the Internet, May/June 131
 for pregnant patients, Nov./Dec. 264
 reactions, adverse, July/Aug. 182

therapy
new, for halitosis, May/June 145
for pain in endodontic patients, Mar./Apr. 61

Dry socket
causes, prevention, and management, Mar./Apr. 70
after dentoalveolar surgery, management of, Sept./Oct. 219
after third molar extraction, perioperative chlorhexidine rinse in prevention of, July/Aug. 192

Duet: retention of ParaPost dowel cemented with, Sept./Oct. 250

Duract: 1997 FDA approval of, Sept./Oct. 224

Durolink-bonded ceramic crowns: fracture resistance of, May/June 153

Dyract-Cem: radiopacity of, July/Aug. 189

Dysmorphia: muscle, in weightlifters, July/Aug. 182

E

Ecchymosis: after dentoalveolar surgery, management of, Sept./Oct. 219

Edentulous
patients, partially, implant treatment considerations for, May/June 115
spaces, treated and untreated, survival rates of teeth adjacent to, Nov./Dec. 292

Education
dental
continuing, Nov./Dec. 257
reorienting course to focus on prevention, Jan./Feb. 23
regarding antibiotic-resistant infections, Sept./Oct. 252

Effergrip: patient preference for, Mar./Apr. 96

Eikenella corrodens: in periodontitis sites, transmission to implant sites, Mar./Apr. 84

Ektasped Plus dental radiography: skin exposure for, July/Aug. 201

El Niño, Mar./Apr. 80

Elderly
oral function of, factors relating to satisfaction in, Jan./Feb. 36
oral infection in, chronic, link to heart disease, July/Aug. 193

Electron microscopy: scanning, study of electronic apex locator with, Nov./Dec. 279

Electronic
analgesia system for placing restorations and inserting crowns or prostheses, Mar./Apr. 83

apex locator
Root ZX, in vivo evaluation of, May/June 138
SEM study of, Nov./Dec. 279
equipment in dental office, and "millennium bug", Nov./Dec. 274
nerve stimulation, transcutaneous, for pain of injections, Nov./Dec. 278

Electrosurgical dental devices: and cardiac pacemakers, May/June 144

Elements: chemical, naming of, Mar./Apr. 81

Elyzol Dental Gel: for periodontal disease, Sept./Oct. 221

E-mail, Mar./Apr. 77

Emphysema
lung reduction for, Sept./Oct. 229
poor oral hygiene and, Nov./Dec. 287

Employees (see Staff)

Empress: in bonded all-ceramic crowns, July/Aug. 164

Enalapril: causing "scalded mouth syndrome", Jan./Feb. 16

Enamel
effect of bleaching agents on, May/June 139
etching, effectiveness of oxalic acid in, Nov./Dec. 296
microabrasion for tooth color improvement, May/June 111

Endocarditis
medical history and guidelines in, Jan./Feb. 35
periodontal disease linked to, Nov./Dec. 269

Endodontic
failure, management methods supported by scientific evidence, Mar./Apr. 63

healing, effect of infection at time of root filling on, May/June 137

infection associated with paresthesia, Jan./Feb. 7

patients, pain management in, Mar./Apr. 61

retreatment
careful attention to "undo" technique crucial in, Mar./Apr. 62
toxicity of solvents during, Sept./Oct. 234

treatment, reliability of intraoral radiographs in evaluation of, May/June 136

Endodontically treated teeth: principles of restoring, Mar./Apr. 74

Endodontics: extraction in, Jan./Feb. 11

Endoscopy: Siemens' "Fly-Through", software for, Nov./Dec. 276

Endosseous implant types: in mandible, comparison of, Nov./Dec. 283

Enforce: radiopacity of, July/Aug. 189

Environmental factors: in oral cancer, Sept./Oct. 217

Enzyme inhibitors: angiotensin-converting, causing "scalded mouth syndrome", Jan./Feb. 16

Epoxy di(meth)acrylate: patient sensitization to, May/June 118

Equipment
electronic, in dental office, and "millennium bug", Nov./Dec. 274
noise in dental labs, effect on hearing, July/Aug. 190

Erbium:yttrium-aluminum-garnet laser (see Er:YAG laser)

Ergonomic evaluation: dental hygienists at low risk for injury in, July/Aug. 191

Er:YAG laser
applications and safety issues, May/June 116
hard tissue use of, safety and effectiveness of, Jan./Feb. 38
removal
of calculus, subgingival, Mar./Apr. 67
of root caries lesions, Sept./Oct. 239

Erythromycin
for abscess, Mar./Apr. 102
for infection after dentoalveolar surgery, Sept./Oct. 219

E-speed film: underutilization of, Nov./Dec. 294

Esthetic
restorations, ceramic optimized polymer, Mar./Apr. 68
restorative materials, evaluating continuum of, Sept./Oct. 220
results
with different bleaching regimens, optimizing, July/Aug. 165
of implant exposure technique, July/Aug. 166
optimum, communicating shade selection for, Sept./Oct. 213

Esthetics
anterior, conservative approaches to, Jan./Feb. 8
of denture clasp, partial, for maxillary canines, improving, Jan./Feb. 19
enhanced by dynamic biologic transformation of periodontium, Mar./Apr. 72
extraction for, Jan./Feb. 11
improvement by extended veneer preparations interproximally, May/June 112

Estrogenic chemical bisphenol-A: does not leach from sealants, Mar./Apr. 85

Etching
acid, before bracket bonding, air abrasion not suitable replacement for, Mar./Apr. 89
enamel, effectiveness of oxalic acid in, Nov./Dec. 296

Ethical
limits of dental profession, Nov./Dec. 256
questions surrounding chemically dependent dentists, May/June 129

Ethyl alcohol: one drop improves handling of gallium alloy, Mar./Apr. 86

Etidocaine: for pain in endodontic patients, Mar./Apr. 61

Examiners: board, find operative and prosthodontic skills have decreased, Mar./Apr. 82

Excavation: stepwise, of deep carious lesions, Sept./Oct. 241

Excimer laser: argon-fluoride, for subgingival calculus removal, Mar./Apr. 67

Excisional biopsy: oral mucosal, in general dental practice, Sept./Oct. 218

Extracted teeth: inlays made from, July/Aug. 204

Extraction

molar, third
dry socket after, perioperative chlorhexidine rinse in prevention of, July/Aug. 192
erupted, scaling and root planing can improve periodontal status after, Jan./Feb. 48
tooth replacement and, when they are part of the best treatment plan, Jan./Feb. 11

Extrusion
apical, with rotational instrumentation, July/Aug. 186
extraction for, Jan./Feb. 11

F

Facial pain
chronic, and depression, May/June 121
patients, treatment-seeking patterns of, July/Aug. 194

Family: transmission of periodontal bacteria from, Jan./Feb. 18

Fauchard's precepts: how they have stood the test of time, Jan./Feb. 54

Fear
dental, managing via iatrosedative process, Sept./Oct. 233
of dental injections, Jan./Feb. 31

Feeding: breast-, prolonged demand, and nursing caries, May/June 136

Feldspathic porcelain: low-fusing, in bonded all-ceramic crowns, July/Aug. 164

Fetal surgery, May/June 132

Fibrinolytic alveolitis: after dentoalveolar surgery, management of, Sept./Oct. 219

Files
K-files, step-back technique, apical extrusion with, July/Aug. 186
NiTi, cutting patterns of, July/Aug. 185

Filling
materials in endodontic retreatment, Mar./Apr. 62
root, infection at time of, and endodontic healing, May/June 137

Film: E-speed, underutilization of, Nov./Dec. 294

Filter: mercury, Nov./Dec. 277

Finishing: and success with direct composite resins, July/Aug. 175

Fissures
amalgam bonded to, July/Aug. 199
sealing with Nd:YAG laser, Nov./Dec. 285

Fixodent: patient preference for, Mar./Apr. 96

Flamingo: lawn flamingo science, May/June 133

Flap
coronally advanced, with connective tissue graft for deep recession defect, July/Aug. 198
coronally repositioned, for root coverage, July/Aug. 171
laterally positioned, in combined surgical procedures for root coverage, July/Aug. 171

Flexi-Flow Natural: Flexi-Post dowel cemented with, retention of, Sept./Oct. 250

Flexi-Post: retention of, Sept./Oct. 250

FloRestore: mechanical properties and flow of, Sept./Oct. 240

Florida Probe: comparison study, July/Aug. 199

Flow-It: mechanical properties and flow of, Sept./Oct. 240

Fluids: body, percutaneous exposure to, know what to do before it occurs, Sept./Oct. 216

Fluocinide: in oral lichen planus, follow-up study, May/June 146

Fluoride
exposure associated with childhood behavior problems, Nov./Dec. 280
gel, caries reduction with, July/Aug. 187
levels, effects on caries and fluorosis in school children, Sept./Oct. 236
mouthrinse during pregnancy, in prevention of mother-to-child transmission of mutans streptococci, Nov./Dec. 279

released from restorative materials, and caries inhibition, Jan./Feb. 40
 role in periodontal therapy, May/June 123
 toxicity from home-use dental products in young children, Mar./Apr. 91
 use, changes in, May/June 140
 Fluorosis: effects of fluoride levels on, in school children, Sept./Oct. 236
 Food(s)
 fixation after stroke, Jan./Feb. 27
 hard, gradual reintroduction alleviates soreness with new dentures, Mar./Apr. 94
 Forensic findings, Nov./Dec. 277
 Fortress: in bonded all-ceramic crowns, July/Aug. 164
 Fracture
 bilateral incomplete, of maxillary first molars, Sept./Oct. 212
 implant, May/June 115
 resistance
 in amalgam restorations, complex, effect of combining Amalgambond Plus and pins on, Jan./Feb. 52
 of crowns, dentin-bonded ceramic, effect of luting system on, May/June 153
 of inlays, porcelain, composite basing effect on, July/Aug. 203
 root, vertical, extraction for, Jan./Feb. 11
 veneer, porcelain, Nov./Dec. 261
 Fuji IX, May/June 117
 Fuji Plus: clinical applications, May/June 117
 Full-mouth disinfection: effect on clinical and microbiologic status, May/June 150
Fusobacterium nucleatum: in periodontitis sites, transmission to implant sites, Mar./Apr. 84

G

Gallium alloy
 advantages of amalgam over, Jan./Feb. 13
 handling of, one drop of ethyl alcohol improves, Mar./Apr. 86
 Gastrointestinal conditions: linked to oral conditions, July/Aug. 170
 Gatorade: vs. low-fat milk for temporary storage of avulsed teeth, Mar./Apr. 84
 Gelfoam: for bleeding after dentoalveolar surgery, Sept./Oct. 219
 Genes: tumor suppressor, and oral cancer, Jan./Feb. 15
 Genetic
 events contributing to oral cancer, Jan./Feb. 15
 risk for periodontal disease, Mar./Apr. 73
 Geristore
 radiopacity of, July/Aug. 189
 repair of mechanical root perforations with, July/Aug. 162
 Gingiva
 disease treatment, AAP position paper on steps taken in, May/June 122
 hyperplasia, drug-induced, management of, July/Aug. 172
 inflammation as predictor of early-onset periodontitis, July/Aug. 197
 recession defects, deep, three approaches to treatment, July/Aug. 198
 subgingival (see Subgingival)
 supragingival plaque control fails to slow periodontal disease progression, Nov./Dec. 291
 Gingivectomy
 for correction of gummy smile, Jan./Feb. 19
 for gingival hyperplasia, drug-induced, July/Aug. 172
 Gingivitis
 chronic, AAP position paper on steps taken in treatment of, May/June 123
 early onset, in Down syndrome patients, Jan./Feb. 21
 Gingivoplasty: for drug-induced gingival hyperplasia, July/Aug. 172

Glass
 castable-glass ceramics in bonded all-ceramic crowns, July/Aug. 164
 -ceramic inlays, pressed, results with, Mar./Apr. 99
 ionomer
 -based materials, developments in, May/June 117
 conventional, in primary teeth, longevity and anti-caries effects of, Jan./Feb. 45
 evaluation of, Sept./Oct. 220
 resin-modified, evaluation of, Sept./Oct. 220
 resin-modified, pulp reaction to, Nov./Dec. 296
 restorations, clinical evaluation of, July/Aug. 202
 pressed-glass ceramics in bonded all-ceramic crowns, July/Aug. 164
 Glove
 latex, product liability lawsuit against manufacturer of, Sept./Oct. 230
 vinyl, making nonlatex dam from, Jan./Feb. 11
 Gold: advantages of amalgam over, Jan./Feb. 13
 Gore-Tex membranes: success rates of ridge augmentation with, Nov./Dec. 283
 Graft, connective tissue
 for deep recession defects, July/Aug. 198
 subepithelial, in combined surgical procedures for root coverage, July/Aug. 171
 Gray shields: use in shade selection, Sept./Oct. 213
 Grits: bur, different, effects on pulpal chamber during ultrahigh-speed tooth preparation, Nov./Dec. 287
 Groove: palatogingival, management of defect associated with, Sept./Oct. 223
 Group practices: and dental practice transition, Jan./Feb. 24
 Growth
 bone, in adolescents, and timing of implant placement, Sept./Oct. 214
 spurt in adolescents, and timing of implant placement, Sept./Oct. 215
 Guided tissue regeneration
 benefit in defects induced by deeply impacted third molars, Jan./Feb. 49
 for deep recession defects, July/Aug. 198
 Guidelines: new, for antibiotic premedication in patients with joint replacements, Jan./Feb. 9
 Gum use: cinnamon, and squamous cell carcinoma of tongue, Nov./Dec. 267
 Gummy smile: diagnosing and correcting, Jan./Feb. 19
 Gutta-percha: removal in endodontic retreatment, Mar./Apr. 62

H

Halitosis: new drug therapy for, May/June 145
 Halothane toxicity: during endodontic retreatment, Sept./Oct. 234
 Hand dermatitis: occupational, few cases are related to latex allergy, July/Aug. 189
 Handpiece
 maintenance, proper, May/June 128
 noise hazard, Mar./Apr. 80
 performance, effect of autoclaving on, July/Aug. 187
 sterilization, steam autoclaves vs. chemical vapor sterilizers for, Nov./Dec. 284
 Hard tissue
 laser, application and safety issues, May/June 116
 use of Er:YAG laser, safety and effectiveness of, Jan./Feb. 38
 Head and neck
 cancer, pain in patients with history of, July/Aug. 195
 manifestations of Down syndrome, Jan./Feb. 21
 Healing
 effect of implant exposure technique on, July/Aug. 166
 endodontic, effect of infection at time of root filling on, May/June 137
 in permanent teeth, vital immature, calcium hydroxide for, Mar./Apr. 64
 tissue, custom guided, for soft tissue profiles around implant sites, Mar./Apr. 64
 of ulcers, aphthous, effect of amlexanox paste on, Jan./Feb. 44
 Health: periodontal, and fluoride, May/June 123
 Hearing
 effect of equipment noise in dental laboratories on, July/Aug. 190
 loss due to handpiece noise, Mar./Apr. 80
 Heart
 attacks and high iron blood levels, in men, Mar./Apr. 80
 disease
 oral infection linked to, chronic, July/Aug. 193
 periodontal disease linked to, Nov./Dec. 269
 failure, congestive, ventricular reduction surgery for, Sept./Oct. 228
 murmur, self-reported, and prophylactic antibiotic use, Nov./Dec. 288
 pacemakers, and ultrasonic and electrosurgical dental devices, May/June 144
 patients, new recommendations for antibiotic prophylaxis in, Jan./Feb. 10
 rate during dental procedures, July/Aug. 194
 Heliomolar Radiopaque: failure of, Sept./Oct. 247
 Helioclear: bisphenol-A does not leach from, Mar./Apr. 85
 Helium:neon laser: applications and safety issues, May/June 116
 HemAssist: current status of, May/June 156
 Hemoglobin-based blood substitutes: current status of, May/June 156
 Hemopure: current status of, May/June 156
 He:Ne laser: applications and safety issues, May/June 116
 Hepatitis C virus: dental implications of, Nov./Dec. 269
 Herbal sense, May/June 133
 Hercules XR: failure of, Sept./Oct. 247
 Hi-Ceram: in bonded all-ceramic crowns, July/Aug. 164
 Hi-Dense, May/June 117
 Hispanic adolescents: clinical features of early-onset periodontitis in, Mar./Apr. 94
 History: medical, in patients at risk for endocarditis, Jan./Feb. 35
 HIV
 exposure to, percutaneous, Mar./Apr. 69
 know what to do before it occurs, Sept./Oct. 216
 global picture in 1998, Nov./Dec. 298
 transmission, how oral cavity resists, Nov./Dec. 267
 treating patients with, May/June 129
 Home
 bleaching
 regimens with carbamide peroxide, July/Aug. 166
 for tooth color improvement, May/June 111
 vs. office bleaching, Nov./Dec. 259
 care for peri-implant complications, May/June 114
 management of cervical tooth sensitivity, Sept./Oct. 214
 nursing, and Alzheimer's disease, Jan./Feb. 27
 -use dental products, fluoride toxicity from, in young children, Mar./Apr. 91
 Hormones: interactions between bone cells and bone loss and, May/June 119
 Hospital ratings, May/June 132
 Human immunodeficiency virus (see HIV)
 Hurricane: during pulpectomy, July/Aug. 162
 Hyaluronan: diclofenac delivered in, effect on aphthous ulcer pain, Mar./Apr. 89
 Hydrochloric acid bleaching: esthetic results with, July/Aug. 165
 Hydrocodone: for pain in endodontic patients, Mar./Apr. 61
 Hydrogen peroxide
 bleaching, esthetic results with, July/Aug. 165
 effect on restorative materials, Nov./Dec. 260
 OTC products for oral ulcers, July/Aug. 169
 Hygiene
 oral
 poor, and emphysema and chronic bronchitis, Nov./Dec. 287
 in stroke patients, Mar./Apr. 74
 practice, independent, encourages visits to dentists, Jan./Feb. 25
 Hygienists
 dental, ergonomic risk for injury, July/Aug. 191

status in U.S. practices, Jan./Feb. 26

- Hyperplasia
 - dentures and, complete, management of, May/June 125
- gingival
 - drug-induced, management of, July/Aug. 172
 - treatment of, AAP position paper on steps taken in, May/June 123
- Hypersensitivity: immediate type I latex, in dental workers, May/June 143
- Hypoplastic defects: dentin-bonded ceramic crowns for patients with, May/June 127

I

- Iatrogenic process: managing dental fear via, Sept./Oct. 233
- Ibuprofen
 - for pain after dentoalveolar surgery, Sept./Oct. 218
 - in pregnant patients, Nov./Dec. 264
- Imaging
 - computer, of sealed teeth with caries, Jan./Feb. 53
 - magnetic resonance, removal of implant magnets before, Jan./Feb. 38
- Immunodeficiency
 - syndrome, acquired, global picture in 1998, Nov./Dec. 298
 - virus, human (see HIV)
- Impacted third molar: deeply, benefit of guided tissue regeneration in defects induced by, Jan./Feb. 49
- Implant
 - cost of, *vs.* complete dentures, Nov./Dec. 281
 - endosseous, in mandible, comparison of types, Nov./Dec. 283
 - exposure technique, effect on healing speed and esthetic results, July/Aug. 166
 - failure, May/June 115
 - rate, effect of preoperative antibiotics on, May/June 141
 - first, July/Aug. 182
 - impressions for, overnight disinfection not advised for, Jan./Feb. 50
 - magnets, removal before MRI, Jan./Feb. 38
 - neighboring, and extraction and tooth replacement, Jan./Feb. 11
 - peri-implant complications, diagnosing and managing, May/June 114
 - placement in adolescents, timing of, Sept./Oct. 214
 - procedure, one-step, in patients with good bone quality and quantity, Jan./Feb. 37
 - prostheses, removable, require more adjustments and repairs than fixed ones, Mar./Apr. 95
 - single-tooth
 - by general practitioners, outcomes of, Nov./Dec. 281
 - overdentures anchored to, prospective study of, Jan./Feb. 52
 - posterior, reliability of, Nov./Dec. 282
- sites
 - bacteria in periodontitis sites transmitted to, Mar./Apr. 84
 - soft tissue profiles around, management of, Mar./Apr. 64
 - success rates, effect of surgical experience on, May/June 142
 - supported dentures in patients with Sjögren's syndrome, Mar./Apr. 65
 - supported fixed partial dentures, success rate, Sept./Oct. 238
 - treatment considerations for partially edentulous patients, May/June 115
- Impressions: overnight disinfection of, Jan./Feb. 50
- Incisal edge reattachment: for dental trauma, Nov./Dec. 272
- Incisional biopsy: oral mucosal, in general dental practice, Sept./Oct. 217

- Incisor
 - classification systems, Angle's system less reliable than Katz and British, Sept./Oct. 243
 - missing lateral maxillary, managing patient with, Sept./Oct. 227
- Income: of male *vs.* female dentists, July/Aug. 179
- Indium: allergy to, Nov./Dec. 265
- Infection
 - antibiotic-resistant, proposed solutions to, Sept./Oct. 252

- Leader: in dental team, becoming one, Sept./Oct. 232
- Leakage
 - marginal, liner evaluated for, May/June 154
 - microleakage
 - sealant, bur preparation reduces, Sept./Oct. 243
 - of veneers, porcelain, Nov./Dec. 261
- Learning tool: using formal debate as, May/June 134
- Leasing: office space, how to decide between buying and, Nov./Dec. 275
- Legal issues: in oral cancer, Nov./Dec. 266
- Letter of intent: in terminating care, Mar./Apr. 76
- Leucite-reinforced porcelains: in bonded all-ceramic crowns, July/Aug. 164
- Leukocyte protease inhibitor: and oral transmission of HIV, Nov./Dec. 267

Leukoplakia
oral, prompt treatment of, Mar./Apr. 71
verrucous, proliferative, high malignant transformation rate for, Jan./Feb. 42

Liability lawsuit: product, against latex glove manufacturer, Sept./Oct. 230

Lichen planus: oral, follow-up study, May/June 146

Lidex: in oral lichen planus, follow-up study, May/June 146

Lidocaine: for oral mucosal biopsies in general dental practice, Sept./Oct. 217

Lifestyle behaviors: unhealthy, and denture stomatitis, May/June 146

Lightspeed technique: with nickel-titanium instruments in root preparations, Jan./Feb. 33

Liner
Bond 2 with composite restorations, Class II, overextended, radiographs of, Sept./Oct. 250
evaluation for marginal leakage, May/June 154

Liver disease: linked to oral conditions, July/Aug. 170

Loading conditions: in implant treatment planning considerations for partially edentulous, May/June 115

Low-fat milk: for temporary storage of avulsed teeth, Mar./Apr. 84

Lozenges: oxidizing, for halitosis, May/June 145

Lung reduction: for emphysema, Sept./Oct. 229

Luting systems: effect on fracture resistance of dentin-bonded ceramic crowns, May/June 153

M
Mach 5.0, July/Aug. 168
Macroabrasion, Jan./Feb. 8
Magnetic resonance imaging: removal of implant magnets before, Jan./Feb. 38
Malalignment: full veneer preparation for, May/June 112

Male
advantage, dentistry's, July/Aug. 179
missing male mystery, Nov./Dec. 276

Malignancy: signs that could lead clinicians to suspect, Sept./Oct. 212

Malignant transformation rate: for proliferative verrucous leukoplakia, Jan./Feb. 42

Managed care
plans and periodontal practice, July/Aug. 180
systems, demographics and participation in, May/June 130
terminating care and, Mar./Apr. 77

Mandible
advancers for snoring, Nov./Dec. 263
implant types in, endosseous, comparison of, Nov./Dec. 283

Manufacture: of diamond burs, Sept./Oct. 211

Marginal leakage: liner evaluated for, May/June 154

Marketing
of dental practice, low-cost ways of, Nov./Dec. 274
of dental products, Nov./Dec. 256

Maxillary
canines, improving esthetics of partial denture clasp for, Jan./Feb. 19
incisors, missing lateral, managing patient with, Sept./Oct. 227
molar, first, bilateral incomplete fractures in, Sept./Oct. 212

Medicaid child dental services: Washington pilot program to increase, Mar./Apr. 79

Medical
drug approvals in 1997, Sept./Oct. 223
history in patients at risk for endocarditis, Jan./Feb. 35
Medicine: oral, enter Ann Landers, Jan./Feb. 4
Membranes: Gore-Tex, success rates of ridge augmentation with, Nov./Dec. 283

Mepivacaine
for oral mucosal biopsies in general dental practice, Sept./Oct. 217
3%, supplemental intraosseous injection for irreversible pulpitis, May/June 138

Mercury
filter, Nov./Dec. 277
levels, urinary, correlation with amalgams, July/Aug. 188
vapor exposure, and its effects on Swedish dental professionals, Jan./Feb. 41

Meridia: 1997 FDA approval of, Sept./Oct. 223

Metabond-bonded ceramic crowns: fracture resistance of, May/June 153

Metal-ceramic crown: choosing between all-ceramic and, July/Aug. 173

Metronidazole: single-dose, and débridement, vs. débridement alone, Jan./Feb. 47

Mibefradil: 1997 FDA approval of, Sept./Oct. 224

Micadent: cost of, July/Aug. 168

Microabrasion, Jan./Feb. 8
enamel, for tooth color improvement, May/June 111

Microbiologic status: effect of full-mouth disinfection on, May/June 150

Microdontia: in Down syndrome, Jan./Feb. 21

Microfil Pontic C combined with silica coating: posterior bridges bonded with, 5-year study of, Sept./Oct. 244

Microleakage
sealant, bur preparation reduces, Sept./Oct. 243
of veneers, porcelain, Nov./Dec. 261

Microprep Director+, July/Aug. 168

Microscopy: scanning electron, study of electronic apex locator with, Nov./Dec. 279

Migration: pathologic, attachment loss greater in teeth with, Mar./Apr. 93

Milk: low-fat, for temporary storage of avulsed teeth, Mar./Apr. 84

"Millennium bug": in dental office, addressing, Nov./Dec. 274

Miracle Mix, May/June 117

Mirage
ABC-bonded ceramic crowns, fracture resistance of, May/June 153
crowns bonded with, all-ceramic, July/Aug. 164
FLC-bonded ceramic crowns, fracture resistance of, May/June 153
Porcelain in bonded all-ceramic crowns, July/Aug. 164

Molar
first maxillary, bilateral incomplete fractures in, Sept./Oct. 212
third
erupted, scaling and root planing after extraction can improve periodontal status, Jan./Feb. 48
extraction, dry socket after, perioperative chlorhexidine rinse in prevention of, July/Aug. 192
impacted, deeply, defects induced by, benefit of guided tissue regeneration in, Jan./Feb. 49
surgery, self-administration of analgesic after, Mar./Apr. 91

Molecular pathogenesis: of oral cancer, Sept./Oct. 217

Moles: skin, suspicious, in patients, dental staff should be alert for, Mar./Apr. 71

Mortality: from oral/pharyngeal cancer, localized, in blacks vs. whites, Sept./Oct. 242

Mother
expectant, periodontal disease in, and low birth weight, Nov./Dec. 290
to-child transmission
of oral bacteria, Jan./Feb. 14
of streptococci, mutans, prevention with chlorhexidine and fluoride mouthrinses during pregnancy, Nov./Dec. 279

Mouth
burning mouth syndrome
causes of, Jan./Feb. 17
in wearers of complete dentures, management of, May/June 125
full-mouth disinfection, effect on clinical and microbiologic status, May/June 150
"scalded mouth syndrome" due to ACE inhibitors, Jan./Feb. 16

Mouthpieces: in scuba diving, May/June 113

Mouthrinse
chlorhexidine (see Chlorhexidine, rinse)

fluoride, during pregnancy, in prevention of mother-to-child transmission of mutans streptococci, Nov./Dec. 279

OTC, for oral ulcers, July/Aug. 169

MRI: removal of implant magnets before, Jan./Feb. 38

Mucosal biopsy: oral, in general dental practice, Sept./Oct. 217

Mucositis: peri-implant, management of, May/June 114

Murmur: heart, self-reported, and prophylactic antibiotic use, Nov./Dec. 288

Muscle dysmorphia: in weightlifters, July/Aug. 182

Music: piezoelectric, Nov./Dec. 277

N

Nadolol: causing "scalded mouth syndrome," Jan./Feb. 16

Naming: of chemical elements, Mar./Apr. 81

Nd:YAG laser
applications and safety issues, May/June 116
removal of subgingival calculus, Mar./Apr. 67
sealing fissures with, Nov./Dec. 285

Neck
cancer, pain in patients with history of, July/Aug. 195
manifestations of Down syndrome, Jan./Feb. 21

Neglect: child, California dentists' knowledge and attitudes on, July/Aug. 196

Neodymium:yttrium-aluminum-garnet laser (see Nd:YAG laser)

Nerve stimulation: transcutaneous electronic, for pain of injections, Nov./Dec. 278

Nervous system tumors: central, and radiography and amalgam, Nov./Dec. 295

Nexus: radiopacity of, July/Aug. 189

Nickel-titanium (see Titanium-nickel)

Nifedipine-induced gingival hyperplasia: management of, July/Aug. 172

Nightguard vital bleaching: for removal of brown spots, Nov./Dec. 261

NiTi files: cutting patterns of, July/Aug. 185

Nitrates, Jan./Feb. 28

Nitrous oxide: and pregnant patient and pregnant personnel, Nov./Dec. 264

Noise
equipment, in dental labs, effect on hearing, July/Aug. 190
level of handpiece, Mar./Apr. 80

Nursing
caries and prolonged demand breast-feeding, May/June 136
homes and Alzheimer's disease, Jan./Feb. 27

O

Occlusal
caries prevention by sealing fissures with Nd:YAG laser, Nov./Dec. 285
vertical dimension, combining techniques to establish, May/June 118

Occupation(s): diving, May/June 113

Occupational
exposure
to hepatitis C virus, Nov./Dec. 269
to latex in dental office, reducing, July/Aug. 167
percutaneous, know what to do before it occurs, Sept./Oct. 216
hand dermatitis, few cases are related to latex allergy, July/Aug. 189

Oculomotor palsy: from local anesthetic, Sept./Oct. 210

Odontalgia: atypical, physiologic basis of, May/June 147

Office, dental
addressing the "millennium bug" in, Nov./Dec. 274
bleaching in, vs. home bleaching, Nov./Dec. 259
latex exposure in, occupational, reducing, July/Aug. 167

space, how to decide between buying and leasing, Nov./Dec. 275

Oncogenes: and oral cancer, Jan./Feb. 15

"One-bottle" bonding system: testing of, May/June 143

One-Step: shear bond strength of, Nov./Dec. 285

Opal Luting Composite: with porcelain veneers, July/Aug. 165

Operative skills: decreased, as finding of board examiners, Mar./Apr. 82

Ophthalmic complications: from local anesthetic, Sept./Oct. 210

OptiBond Solo: shear bond strength of, Nov./Dec. 285

Optro: current status of, May/June 156

Orafix: patient preference for, Mar./Apr. 96

Oral

- appliances for snoring, Nov./Dec. 263
- bacteria, mother-to-child transmission of, Jan./Feb. 14
- Balance, effect on xerostomia, Nov./Dec. 289
- cancer (*see* Cancer, oral)
- cavity, how it resists transmission of HIV, Nov./Dec. 267
- conditions, links between gastrointestinal conditions and, July/Aug. 170
- diseases and hepatitis C virus, Nov./Dec. 269
- function of older adults, factors relating to satisfaction in, Jan./Feb. 36
- hygiene

 - poor, and emphysema and chronic bronchitis, Nov./Dec. 287
 - in stroke patients, Mar./Apr. 74

- infection, chronic, link to heart disease, July/Aug. 193
- leukoplakia lesions, prompt treatment of, Mar./Apr. 71
- lichen planus, follow-up study, May/June 146
- manifestations of Down syndrome, Jan./Feb. 21
- medicine, enter Ann Landers, Jan./Feb. 4
- mucosal biopsy in general dental practice, Sept./Oct. 217
- surgeons, percutaneous injuries in, Mar./Apr. 69
- ulcers, OTC products for, July/Aug. 169

Organ substitutes: transgenic pigs and tissue engineering as approaches to, July/Aug. 206

Orthodontic

- intervention, early, appropriateness of, May/June 120
- treatment

 - of patient with missing maxillary incisors, Sept./Oct. 227
 - /prosthodontic treatment of patient with missing maxillary incisors, Sept./Oct. 227

Osseointegrated implants: fixed partial dentures supported by, success rate, Sept./Oct. 238

Osteotomy procedures: for correction of gummy smile, Jan./Feb. 19

Osteitis, alveolar (*see* Dry socket)

OTC products: for oral ulcers, July/Aug. 169

Overdentures anchored to single implants: prospective study on, Jan./Feb. 52

Overnight disinfection: of impressions, Jan./Feb. 50

Over-the-counter products: for oral ulcers, July/Aug. 169

Oxalic acid: in etching enamel, effectiveness of, Nov./Dec. 296

Oxidizing lozenges: for halitosis, May/June 145

Oxygenating agents: OTC, for oral ulcers, July/Aug. 169

Oxygen: current status of, May/June 156

P

P-50, Sept./Oct. 216

p53 gene: and oral cancer, Jan./Feb. 15

Pacemakers: and ultrasonic and electrosurgical dental devices, May/June 144

Pain

- aphthous ulcer

 - effect of amlexanox paste on, Jan./Feb. 44
 - effect of diclofenac delivered in hyaluronan on, Mar./Apr. 89

- after dentoalveolar surgery, management of, Sept./Oct. 218

facial

- chronic, and depression, May/June 121
- treatment-seeking patterns of patients with, July/Aug. 194

of injections, TENS for, Nov./Dec. 278

management in endodontic patients, Mar./Apr. 61

in patients with history of head and neck cancer, July/Aug. 195

threshold, anticipating painful treatment may increase, Mar./Apr. 90

Painful treatment: anticipation of, may increase pain threshold, Mar./Apr. 90

Palate

- appliance for stroke patients, Mar./Apr. 74
- contours and speech, Sept./Oct. 225

Palatogingival groove: management of defect associated with, Sept./Oct. 223

Palsy: oculomotor: from local anesthetic, Sept./Oct. 210

Panavia 21

- radiopacity of, July/Aug. 189

Panoramic survey: with bitewings offer good diagnostic yield, Nov./Dec. 294

P30-APC: failure of, Sept./Oct. 247

ParaPost: retention of, Sept./Oct. 250

Paresthesia: associated with endodontic infection, Jan./Feb. 7

Paste

- amlexanox, effect on healing and pain of aphthous ulcers, Jan./Feb. 44
- denture adhesive, patient preferences, Mar./Apr. 96

Pathologic migration: attachment loss greater in teeth with, Mar./Apr. 93

Patient

- anxious, increased use of sedation and general anesthesia for, July/Aug. 184
- complaints, correlation with complete denture construction faults, Sept./Oct. 245
- controlled TENS for pain of injections, Nov./Dec. 278
- population, psychiatric distress in, Jan./Feb. 31
- preferences among denture adhesive pastes, Mar./Apr. 96
- pregnancy, caring for, Nov./Dec. 264
- requests, when they go too far, July/Aug. 178
- safety during dental procedures, and vital signs, July/Aug. 194
- satisfaction measures associated with technical quality of prostheses, May/June 151
- sensitization to BIS-GMA, May/June 118

Pediatric (*see* Children)

Penicillin: for infection after dentoalveolar surgery, Sept./Oct. 219

Pensler Shield: use in shade selection, Sept./Oct. 213

Perception: virtual, Sept./Oct. 229

Percutaneous

- exposure, know what to do before it occurs, Sept./Oct. 216
- injuries in dentists, steady drop in, Mar./Apr. 68

Perforations: root, mechanical, in repair with resin-ionomer material, July/Aug. 162

Performance reviews: for dental employees, July/Aug. 178

Periapical lesions: and stroke risk, Mar./Apr. 87

Peri-implant complications: diagnosing and managing, May/June 114

Peri-implantitis: management of, May/June 114

PerioChip: for periodontal disease, Sept./Oct. 221

Periodontal

- abscess, tooth with, successful maintenance after treatment, Mar./Apr. 92
- bacteria, intra-family transmission of, Jan./Feb. 18
- defects

 - associated with palatogingival groove, management of, Sept./Oct. 223
 - induced by deeply impacted third molars, benefit of guided tissue regeneration in, Jan./Feb. 49

- diagnosis, international group's findings on, Jan./Feb. 17
- disease

 - antibiotic delivery for, local, Sept./Oct. 221
 - birth weight and, low, Nov./Dec. 290
 - effect on systemic health, understanding of, Nov./Dec. 270

genetic risk for, Mar./Apr. 73

links between systemic diseases and, AAP position paper on, Nov./Dec. 269

progression, effect of triclosan/copolymer dentifrice on, May/June 149

progression, supragingival plaque control fails to slow, Nov./Dec. 291

health and fluoride, May/June 123

practice and managed care plans, July/Aug. 180

probes, comparison study of, July/Aug. 199

status, scaling and root planing after extraction of erupted third molars can improve, Jan./Feb. 48

therapy

- fluoride role in, May/June 123
- international group's findings on, Jan./Feb. 17
- spouse's salivary bacteria not transmitted to patient after, May/June 148
- supportive, AAP position paper on, Sept./Oct. 222
- tissues, correlation between radiographic and clinical changes in, May/June 150

Periodontitis

- early-onset

 - clinical features of, Mar./Apr. 94
 - clinical prediction of, July/Aug. 197
 - in Down syndrome patients, Jan./Feb. 21

- extraction and, Jan./Feb. 11
- role of *Candida* in denture plaque in, Sept./Oct. 219
- sites, bacteria in, transmission to implant sites, Mar./Apr. 84
- stroke risk and, Mar./Apr. 87
- treatment, AAP position paper on steps taken in, May/June 122

Periodontium transformation: dynamic biologic, to enhance esthetics, Mar./Apr. 72

Perioral dermatitis: due to BIS-GMA, May/June 118

Peroxide

- carbamide, bleaching with

 - effect on restorative materials, Nov./Dec. 260

- esthetic results of, July/Aug. 166
- hydrogen (*see* Hydrogen peroxide)

Personnel (*see* Staff)

Pharmaceutical quality: and antibiotic-resistant infections, Sept./Oct. 252

Pharyngeal cancer: localized, mortality from, in blacks *vs.* whites, Sept./Oct. 242

Phenol-induced gingival hyperplasia: management of, July/Aug. 172

Phonetics: in combined techniques to establish occlusal vertical dimension, May/June 118

PhotoBond: with composite restorations, Class II, overextended, radiographs of, Sept./Oct. 250

Photocopier: making clear denture labels with computer printer and photocopier, July/Aug. 175

Physician's viewpoint: on pediatric preventive dental care, Mar./Apr. 103

Physiologic basis: of atypical odontalgia, May/June 147

Pierre Fauchard's precepts: how they have stood the test of time, Jan./Feb. 54

Piezoelectric music, Nov./Dec. 277

Pigs: transgenic, as approach to organ substitutes, July/Aug. 206

Pins combined with Amalgambond Plus: effect on fracture resistance in complex amalgam restorations, Jan./Feb. 52

Pits and fissures: amalgam bonded to, July/Aug. 199

Planing, root (*see* Root, planing)

Plaque

- control

 - in prevention of drug-induced gingival hyperplasia, July/Aug. 172
 - supragingival, fails to slow periodontal disease progression, Nov./Dec. 291

- denture, *Candida* in, role in caries and periodontitis, Sept./Oct. 219
- removal, effect of brushing technique *vs.* toothbrush design on, Jan./Feb. 50

Pocket distention: short-term, root planing for, Jan./Feb. 47

- Polyether impressions: overnight disinfection of, Jan./Feb. 50
- Polyethylene fiber: for immediate replacement of missing anterior tooth, July/Aug. 174
- PolyHeme: current status of, May/June 156
- Polymer esthetic restorations: ceramic optimized, Mar./Apr. 68
- Polysomnography: in diagnosis of sleep apnea, Nov./Dec. 262
- Polytetrafluorethylene membranes: expanded, success rates of ridge augmentation with, Nov./Dec. 283
- Pontic
direct-bonded, short-term use followed by placement of resin-bonded fixed partial denture, Nov./Dec. 271
resin-bonded natural tooth, for immediate replacement of missing anterior tooth, July/Aug. 174
wire-reinforced, for immediate replacement of missing anterior tooth, July/Aug. 174
- Porcelain
feldspathic, low-fusing, in bonded all-ceramic crowns, July/Aug. 164
inlays, fracture resistance of, composite basing effect on, July/Aug. 203
veneer (*see* Veneer, porcelain)
- Porphyromonas gingivalis*
in periodontitis sites, transmission to implant sites, Mar./Apr. 84
transmission of
intra-family, Jan./Feb. 18
mother-to-child, Jan./Feb. 15
- Posicor: 1997 FDA approval of, Sept./Oct. 224
- Position paper, AAP
on links between periodontal disease and systemic diseases, Nov./Dec. 269
on steps taken in treatment of periodontitis and gingival disease, May/June 122
on supportive periodontal therapy, Sept./Oct. 222
- Post(s)
and core combinations tested for retention, Sept./Oct. 250
removal in endodontic retreatment, Mar./Apr. 62
retention, zinc phosphate and resin cements compared for, Jan./Feb. 51
use in restoring endodontically treated teeth, Mar./Apr. 75
- Postoperative care: after tetracycline fiber placement by general dentists, May/June 122
- Practice
dental
consolidated, Mar./Apr. 78
dental hygienists in, status of, in U.S., Jan./Feb. 26
general, oral mucosal biopsies in, Sept./Oct. 217
Internet use in managing, Mar./Apr. 78
marketing of, low-cost ways of, Nov./Dec. 274
transition opportunities, making sense of, Sept./Oct. 230
transitions, heading off problems in, Jan./Feb. 24
periodontal, and managed care plans, July/Aug. 180
- Prednisone: in oral lichen planus, follow-up study, May/June 146
- Pregnancy
caring for pregnant patient, Nov./Dec. 264
mouthrinses during, chlorhexidine and fluoride, in prevention of mother-to-child transmission of mutans streptococci, Nov./Dec. 279
periodontal disease and, Nov./Dec. 270
periodontal disease in, and low birth weight, Nov./Dec. 290
taking precautions for pregnant personnel, Nov./Dec. 264
- Prehistoric dentistry, Mar./Apr. 80
- Premedication
antibiotic, in patients with joint replacement, new guidelines for, Jan./Feb. 9
triazolam, sublingual, for sedation, Jan./Feb. 30
- Prepstar: cost of, July/Aug. 168
- Prescription: laboratory, use in shade selection, Sept./Oct. 213
- Preventive dental care: pediatric, physician's viewpoint, Mar./Apr. 103
- Prevotella intermedia*: in periodontitis sites, transmission to implant sites, Mar./Apr. 84
- Prime & Bond
effectiveness of, Jan./Feb. 39
shear bond strength of, Nov./Dec. 285
- PRIMM, Jan./Feb. 14
- Printer: computer, making clear denture labels with computer printer and photocopier, July/Aug. 175
- Prisma-Shield: bisphenol-A does not leach from, Mar./Apr. 85
- Probes: periodontal, comparison study of, July/Aug. 199
- Probing: bleeding on, as marker for approximal caries progression, May/June 135
- Prodigy: mechanical properties and flow of, Sept./Oct. 240
- Products, dental (*see* Dental, products)
- Professionals: dental, effect of mercury vapor exposure on, Jan./Feb. 41
- Profit: putting profit before patients, Nov./Dec. 256
- Prosthesis
immediate provisional, for missing anterior tooth, guide to selecting, July/Aug. 174
implant, removable, requires more adjustments and repairs than fixed one, Mar./Apr. 95
insertion, electronic analgesia system for, Mar./Apr. 83
Iron Age, Sept./Oct. 228
quality, technical, association with patient satisfaction measures, May/June 151
removable, titanium-nickel clasps for, May/June 152
- Prosthodontic
complications, May/June 115
orthodontic treatment of patient with missing maxillary incisors, Sept./Oct. 227
skills, decreased, as finding of board examiners, Mar./Apr. 82
- Prosthodontics: speech principles important in, Sept./Oct. 225
- Protease inhibitor: leukocyte, and oral transmission of HIV, Nov./Dec. 267
- Psychiatric distress: in dental patients, Jan./Feb. 31
- e-PTFE: success rates of ridge augmentation with, Nov./Dec. 283
- Pulp
capping, direct, with CO₂ laser, Sept./Oct. 234
chamber, effects of different bur grits during ultrahigh-speed tooth preparation on, Nov./Dec. 287
exposure, stepwise excavation of deep carious lesions may avert, Sept./Oct. 241
reaction to resin-modified glass ionomer cement, Nov./Dec. 296
- Pulpotomy: anesthesia during, intracanal topical, July/Aug. 162
- Pulpitis: irreversible, supplemental intraosseous injection for, May/June 138
- Punch biopsy: oral mucosal, in general dental practice, Sept./Oct. 218
- tumors and, central nervous system, Nov./Dec. 295
- Radiopacity: of dual-cured and chemically-cured cements, July/Aug. 189
- Radiotherapy
honing, Sept./Oct. 228
in oral cancer, Sept./Oct. 217
xerostomia after, effect of synthetic saliva substitute on, Nov./Dec. 289
- Radiovisiography: skin exposure for, July/Aug. 201
- Reattachment: incisal edge, for dental trauma, Nov./Dec. 272
- Recession defects: deep, three approaches to treatment, July/Aug. 198
- Recontouring, Jan./Feb. 8
- Research
careers, how can we encourage dental students to pursue? July/Aug. 181
regarding antibiotic-resistant infections, Sept./Oct. 252
- Resin(s)
-based cements, dual-cured and chemically-cured, radiopacity of, July/Aug. 189
bond strength, effect of excess water removal method on, May/June 155
-bonded bridges, posterior
5-year study of, Sept./Oct. 244
risk factors associated with poor survival of, Nov./Dec. 293
-bonded denture attachments, extracoronally removable partial, good results with, Mar./Apr. 96
-bonded dentures, fixed partial
good results with, Mar./Apr. 96
short-term use of direct-bonded pontic followed by placement of, Nov./Dec. 271
-bonded natural tooth pontic for immediate replacement of missing anterior tooth, July/Aug. 174
cement, post retention with, Jan./Feb. 51
composites
advantages of amalgam over, Jan./Feb. 13
Class V, not linked to periodontal damage, Sept./Oct. 248
clinical evaluation of, July/Aug. 202
direct, success with, July/Aug. 175
evaluation of, Sept./Oct. 221
posterior, abrasive wear in, reducing, Sept./Oct. 215
posterior, failure of, Sept./Oct. 247
wear resistance, effect of increased curing on, Jan./Feb. 40
-ionomer material in repair of mechanical root perforations, July/Aug. 162
-modified glass ionomers
evaluation of, Sept./Oct. 220
pulp reaction to, Nov./Dec. 296
restorations, preventive, careful technique promotes success of, Mar./Apr. 97
restorative systems, direct and indirect, recent advances in, Jan./Feb. 14
- Respiratory illness: linked to periodontal disease, Nov./Dec. 270
- Restoration(s)
amalgam (*see* Amalgam)
ceramic, indirect, bond between tooth and, strengthening by dual bonding technique, May/June 126
composite (*see* Composites)
effect of bleaching procedures on, Nov./Dec. 260
of endodontically treated teeth, Mar./Apr. 74
existing, full veneer preparation for, May/June 112
glass ionomer, clinical evaluation of, July/Aug. 202
placement, electronic analgesia system for, Mar./Apr. 83
polymer esthetic, ceramic optimized, Mar./Apr. 68
repeat, and dental education, Jan./Feb. 23
resin, preventive, careful technique promotes success of, Mar./Apr. 97
saucer-shaped, 10-year results of, May/June 153
sealed, ultraconservative and cariostatic, long-term report on, May/June 152
- Restorative
materials
esthetic, evaluating continuum of, Sept./Oct. 220

R

- Radiograph(s)
angled, in identifying multiple root canals, Jan./Feb. 6
of composite restorations, overextended Class II, Sept./Oct. 250
intraoral, reliability in evaluating endodontic treatment, May/June 136
panoramic, detecting stroke risk factors on, Jan./Feb. 43
- Radiography
changes in periodontal tissues, correlation with clinical changes, May/June 150
conventional, skin exposure for, July/Aug. 201
digital, for estimation of working length, Jan./Feb. 34
panoramic survey with bitewings offer good diagnostic yield, Nov./Dec. 294
quality assurance study shows rectangular collimation and E-speed film are underutilized, Nov./Dec. 294

fluoride release from, and caries inhibition, Jan./Feb. 40

systems, resin, direct and indirect, recent advances in, Jan./Feb. 14

treatment of patient with missing maxillary incisors, Sept./Oct. 227

Restrictive covenants: in dental practice transition, Jan./Feb. 24

Retention

- post, zinc phosphate and resin cements compared for, Jan./Feb. 51
- post and core combinations tested for, Sept./Oct. 250

Retinoic acid: 13-*cis*, in oral leukoplakia, Mar./Apr. 71

Revolution: mechanical properties and flow of, Sept./Oct. 240

Ribbon: for immediate replacement of missing anterior tooth, July/Aug. 174

Ridge

- augmentation success rates, Nov./Dec. 283
- resorption with complete dentures, May/June 125

Rinse (see Mouthrinse)

Robodoc, Nov./Dec. 276

Root

- canals, multiple, importance of identifying, Jan./Feb. 6
- caries lesions, Er:YAG laser for removal of, Sept./Oct. 239
- coverage
 - combined surgical procedures for, July/Aug. 171
 - further, creeping attachment after surgery provides, Jan./Feb. 46
- filling, infection at time of, and endodontic healing, May/June 137
- fracture, vertical, extraction for, Jan./Feb. 11
- perforations, mechanical, resin-ionomer material in repair of, July/Aug. 162
- planing
 - after extraction of erupted third molars can improve periodontal status, Jan./Feb. 48
 - laser treatment for subgingival calculus removal and, Mar./Apr. 67
 - for pocket distention, short-term, Jan./Feb. 47
 - role of fluoride in, May/June 123
- preparations, instruments and techniques compared in, Jan./Feb. 33
- ZX electronic apex locator
 - SEM study of, Nov./Dec. 279
 - in vivo evaluation of, May/June 138

Rotational instrumentation: apical extrusion with, July/Aug. 186

S

Salad warfare, Jan./Feb. 27

Saliva

- bacteria in, spouse's, not transmitted to patient after treatment, May/June 148
- substitute, synthetic, effect on xerostomia, Nov./Dec. 289
- tests, Nov./Dec. 276
- vs. low-fat milk for temporary storage of avulsed teeth, Mar./Apr. 84

Saucer-shaped preparations: 10-year results of, May/June 153

"Scalded mouth syndrome": due to ACE inhibitors, Jan./Feb. 16

Scaling

- after extraction of erupted third molars can improve periodontal status, Jan./Feb. 48
- fluoride role in, May/June 123
- laser treatment for subgingival calculus removal and, Mar./Apr. 67

School children: effects of fluoride levels on caries and fluorosis in, Sept./Oct. 236

Scotchbond

- Multipurpose
 - with composite restorations, Class II, overextended, radiographs of, Sept./Oct. 250
 - Plus, all-ceramic crowns bonded with, July/Aug. 164
- Plus, ceramic crowns bonded with, fracture resistance of, May/June 153
- radiopacity of, July/Aug. 189

Screw loosening

- effectiveness of technique to prevent, Sept./Oct. 238
- implant, May/June 115

Scuba diving-related dental problems, May/June 113

Sealants

- bisphenol-A does not leach from, Mar./Apr. 85
- bur preparation for, microleakage after, Sept./Oct. 243
- success of, July/Aug. 171
- intermediate bonding layer and regular maintenance as keys to, Sept./Oct. 224

Sealbond: radiopacity of, July/Aug. 189

Scaled restorations: ultraconservative and cariostatic, long-term report on, May/June 152

Scaled teeth: with caries, computer imaging of, Jan./Feb. 53

Scaling

- ability of compomers, July/Aug. 203
- of fissures with Nd:YAG laser, Nov./Dec. 285
- after tetracycline fiber placement by general dentists, May/June 122

Seal-Rite I and II: bisphenol-A does not leach from, Mar./Apr. 85

Secure: patient preference for, Mar./Apr. 96

Sedation

- triazolam premedication for, sublingual, Jan./Feb. 30
- use increased for anxious patients, July/Aug. 184

Self-examination: for oral cancer, Nov./Dec. 266

SEM study: of electronic apex locator, Nov./Dec. 279

Sensitivity: cervical tooth, management of, Sept./Oct. 214

Sensitization: to BIS-GMA, May/June 118

Service capacity: and workload, 231

Shade selection: for optimum esthetic results, communicating, Sept./Oct. 213

Shields: gray, use in shade selection, Sept./Oct. 213

Shoes: athletic, Jan./Feb. 27

Sibutramine: 1997 FDA approval of, Sept./Oct. 223

Siemens' "Fly-Through" software: for endoscopy, Nov./Dec. 276

Signing: an associateship agreement, factors to consider before, Jan./Feb. 25

Silica coating

- of ceramic, alumina, bond after, Sept./Oct. 246
- combined with Microfil Pontic C, posterior bridges bonded with, 5-year study of, Sept./Oct. 244

Silicone impressions: addition, overnight disinfection of, Jan./Feb. 50

Silver cones: in endodontic retreatment, Mar./Apr. 62

Single Bond: shear bond strength of, Nov./Dec. 285

Sjögren's syndrome patients: implant-supported dentures in, Mar./Apr. 65

Skin

- exposure for radiovisiography and conventional radiography, July/Aug. 201
- moles in patients, suspicious, dental staff should be alert for, Mar./Apr. 71

Sleep

- apnea, recognition of, Nov./Dec. 262
- bruxism related to periodic sleep disturbances, Sept./Oct. 237

Smile: gummy, diagnosing and correcting, Jan./Feb. 19

Smokers' dentifrice, July/Aug. 177

Smoking: and attachment loss, July/Aug. 197

Snoring: oral appliances for, Nov./Dec. 263

Socket, dry (see Dry socket)

Soft tissue

- contours in combined techniques to establish occlusal vertical dimension, May/June 118
- profiles around implant sites, management of, Mar./Apr. 64

Software: Siemens' "Fly-Through," for endoscopy, Nov./Dec. 276

Solvents: toxicity during endodontic retreatment, Sept./Oct. 234

Soreness: with new dentures, alleviation by gradual reintroduction of hard foods, Mar./Apr. 94

Speech principles: importance in prosthodontics, Sept./Oct. 225

Spitting image, Nov./Dec. 276

Splint therapy: in temporomandibular disorders, Mar./Apr. 100

Spots: brown, nightguard vital bleaching for removal of, Nov./Dec. 261

Spouse: salivary bacteria of, not transmitted to patient after treatment, May/June 148

Squamous cell carcinoma: of tongue, and cinnamon gum use, Nov./Dec. 267

Stabilizers: hard and soft, temporomandibular joint treatment with, July/Aug. 205

Staff, dental

- alert for suspicious skin moles in patients, Mar./Apr. 71
- issues in dental practice transition, Jan./Feb. 24
- percutaneous injuries in, Mar./Apr. 69
- performance and compensation reviews for, July/Aug. 178
- pregnant, taking precautions for, Nov./Dec. 264

Steam autoclaves: for handpieces, Nov./Dec. 284

Sterilization protocol: handpiece, May/June 128

Sterilizers: chemical vapor, vs. steam autoclaves, for handpieces, Nov./Dec. 284

Sterilizers: handpiece, May/June 128

Stomatitis

- aphthous, recurrent, inflammatory pathways in, Nov./Dec. 289
- BIS-GMA causing, May/June 118

denture

- lifestyle behaviors and, unhealthy, May/June 146
- management of, May/June 125
- irritant contact, review of, Nov./Dec. 268

Storage: temporary, of avulsed teeth, low-fat milk for, Mar./Apr. 84

Streptococci: mutans, mother-to-child transmission of, prevention with chlorhexidine and fluoride mouthrinses during pregnancy, Nov./Dec. 279

Streptococcus mutans: mother-to-child transmission of, Jan./Feb. 14

Stroke

- food fixation after, Jan./Feb. 27
- patients, treatment modifications in, Mar./Apr. 73

risk

- factors, detection on panoramic radiographs, Jan./Feb. 43
- linked to periodontitis and periapical lesions, Mar./Apr. 87

Students: dental, how can we encourage them to pursue research careers? July/Aug. 181

Subepithelial connective tissue grafts: in combined surgical procedures for root coverage, July/Aug. 171

Subgingival calculus

- as predictor of early-onset periodontitis, July/Aug. 197
- removal, lasers ineffective for, Mar./Apr. 67
- chlorhexidine for acute peri-implant abscess, May/June 114
- delivery of fluoride, May/June 123

Sublingual triazolam premedication: for sedation, Jan./Feb. 30

Super Poli-Grip: patient preference for, Mar./Apr. 96

Supragingival plaque control: fails to slow periodontal disease progression, Nov./Dec. 291

Surgeons: oral, percutaneous injuries in, Mar./Apr. 69

Surgery

- dentoalveolar, managing complications after, Sept./Oct. 218
- fetal, May/June 132

Surgical

- experience, effect on implant success rates, May/June 142
- telescopes enhance visualization during dental procedures, Nov./Dec. 264

Surgical: for bleeding after dentoalveolar surgery, Sept./Oct. 219

Swelling: after dentoalveolar surgery, management of, Sept./Oct. 218

Synalogs-DC: for pain after dentoalveolar surgery, Sept./Oct. 218

Syntac Single-Component: shear bond strength of, Nov./Dec. 285

Systemic
disease, links between periodontal disease and, AAP
position paper on, Nov./Dec. 269
health, understanding how periodontal diseases may
influence, Nov./Dec. 270
manifestations of Down syndrome, Jan./Feb. 21

T

Tap water: vs. low-fat milk for temporary storage of avulsed
teeth, Mar./Apr. 84
Team: dental, becoming a leader in, Sept./Oct. 232
Teeth
adjacent
to edentulous spaces, treated and untreated, survival
rates of, Nov./Dec. 292
iatrogenic damage to, new tooth preparation
instruments may reduce, Nov./Dec. 286
avulsed, temporary storage of, low-fat milk for, Mar./Apr.
84
bond between tooth and indirect ceramic restoration
strengthened by dual bonding technique, May/June
126
cervical, sensitivity, management of, Sept./Oct. 214
color of, conservative methods to improve, May/June 111
with dens evaginatus, management of, July/Aug. 163
discoloration of, full veneer preparation for, May/June
112
effect of bleaching procedures on, Nov./Dec. 260
endodontically treated, principles of restoring, Mar./Apr.
74
extracted, inlays made from, July/Aug. 204
missing anterior, guide to selective immediate provisional
prosthesis for, July/Aug. 174
natural, resin-bonded, for immediate replacement of
missing anterior teeth, July/Aug. 174
with pathologic migration, attachment loss greater in,
Mar./Apr. 93
permanent, nonvital immature, calcium hydroxide for
healing in, Mar./Apr. 64
preparation
for crowns, metal-ceramic and all-ceramic, July/Aug.
173
instruments, new, iatrogenic damage to adjacent teeth
from, Nov./Dec. 286
ultrahigh-speed, effects of different bur grits on pulpal
chamber during, Nov./Dec. 287
primary, conventional glass ionomer and amalgam in,
longevity and anti-caries effects of, Jan./Feb. 45
replacement after extraction, when it is part of the best
treatment plan, Jan./Feb. 11
sealed, with caries, computer imaging of, Jan./Feb. 53
treated for periodontal abscess may be maintained
successfully, Mar./Apr. 92
wear of, dentin-bonded ceramic crowns for patients with,
May/June 127
Telescopes: surgical, visualization during dental procedures
enhanced by, Nov./Dec. 264
Ternovate: in oral lichen planus, follow-up study, May/June
146
Temporomandibular joint
disk displacement, nonreducing, resolution within one
year without treatment, Mar./Apr. 99
disorders
splint therapy in, Mar./Apr. 100
treatment of, tinnitus improvement after, Mar./Apr.
101
dysfunction, diving-related, May/June 113
treatment with hard and soft stabilizers, July/Aug. 205
TENS: for pain of injections, Nov./Dec. 278
Tenure
crowns bonded with, all-ceramic, July/Aug. 164
Quick with Fluoride, shear bond strength of, Nov./Dec.
285
Terminating care: importance of following guidelines when,
Mar./Apr. 76

Tetracycline
fibers
Actisite, for periodontal disease, Sept./Oct. 221
placement by general dentists, May/June 122
HCl solution in management of defect associated with
palatogingival groove, Sept./Oct. 223
3M Indirect Porcelain Bonding kit: ceramic crowns bonded
with, fracture resistance of, May/June 153
Ti-Ni (see Titanium-nickel)
Tinnitus improvement: after temporomandibular disorder
treatment, Mar./Apr. 101
Tissue
connective tissue grafts
for deep recession defects, July/Aug. 198
subepithelial, in combined surgical procedures for root
coverage, July/Aug. 171
engineering and organ transplantation, July/Aug. 206
hard tissue
laser, applications and safety issues, May/June 116
use of Er:YAG laser, safety and effectiveness of,
Jan./Feb. 38
periodontal, correlation between radiographic and clinical
changes in, May/June 150
regeneration, guided
benefit in defects induced by deeply impacted third
molars, Jan./Feb. 49
for deep recession defects, July/Aug. 198
soft
contours in combined techniques to establish occlusal
vertical dimension, May/June 118
profiles around implant sites, management of, Mar./
Apr. 64
Titanium-nickel
clasps for removable prostheses, May/June 152
files, cutting patterns of, July/Aug. 185
instrumentation for canal centering, Jan./Feb. 32
instruments and techniques in root preparations,
Jan./Feb. 33
Tobacco use
cessation, more dentists need to be involved in, May/June
140
oral cancer and, Sept./Oct. 217
Tom's of Maine, July/Aug. 177
Tongue
advancers for snoring, Nov./Dec. 263
carcinoma, squamous cell, and cinnamon gum use,
Nov./Dec. 267
Tooth (see Teeth)
Toothbrush design: effect on plaque removal, Jan./Feb. 50
Toxicity
fluoride, from home-use dental products in young
children, Mar./Apr. 91
of solvents during endodontic retreatment, Sept./Oct.
234
Transcutaneous electronic nerve stimulation: for pain of
injections, Nov./Dec. 278
Transgenic pigs: as approach to organ substitutes, July/Aug.
206
Trauma, dental
childhood, what patients remember after, Jan./Feb. 33
incisal edge reattachment for, Nov./Dec. 272
Treatment-seeking patterns: of facial pain patients,
July/Aug. 194
Triazolam premedication: sublingual, for sedation, Jan./Feb.
30
Triclosan/copolymer dentifrice
for adolescents, preventive properties of, Sept./Oct. 251
effect on periodontal disease progression, May/June 149
Trismus
after dentoalveolar surgery, management of, Sept./Oct.
218
diagnosis and management of, Jan./Feb. 22
True-Look: mechanical properties and flow of, Sept./Oct.
240
Tumor
central nervous system, and radiography and amalgam,
Nov./Dec. 295
necrosis factor- α levels in recurrent aphthous stomatitis,
Nov./Dec. 289

suppressor genes and oral cancer, Jan./Feb. 15

U

Ulcers
aphthous, pain of
effect of amlexanox paste on, Jan./Feb. 44
effect of diclofenac delivered in hyaluronan on, Mar./
Apr. 89
oral, OTC products for, July/Aug. 169
Ultraconservative sealed restorations: long-term report on,
May/June 152
UltraSeal XT Plus: mechanical properties and flow of,
Sept./Oct. 240
Ultrasonic
bactericidal curettage for defect associated with
palatogingival groove, Sept./Oct. 223
dental devices, and cardiac pacemakers, May/June 144
Urinary mercury levels: correlation with amalgams,
July/Aug. 188

V

Variolink: radiopacity of, July/Aug. 189
Vasotec: causing "scalded mouth syndrome", Jan./Feb. 16
Veneer(s)
partial, Jan./Feb. 8
porcelain, Jan./Feb. 8
bonded, dos and don'ts, July/Aug. 164
Colorlogic, 4-year results, Sept./Oct. 236
ensuring better results with, Nov./Dec. 261
performance evaluation, Sept./Oct. 235
preparations, effect of interproximal extension on
esthetics, May/June 112
Ventricular reduction surgery: for congestive heart failure,
Sept./Oct. 228
Verrucous leukoplakia: proliferative, high malignant
transformation rate for, Jan./Feb. 42
Versaflo: mechanical properties and flow of, Sept./Oct. 240
Vertical dimension: occlusal, combining techniques to
establish, May/June 118
Vicodin: for pain after dentoalveolar surgery, Sept./Oct. 218
Vicoprofen: 1997 FDA approval of, Sept./Oct. 224
Vinyl glove: nonlatex dental dam made from, Jan./Feb. 11
Virtual perception, Sept./Oct. 229
Virus
hepatitis C, dental implications of, Nov./Dec. 269
human immunodeficiency (see HIV)
Visit, dental
checking blood pressure at end of, Mar./Apr. 88
independent hygiene practice encourages, Jan./Feb. 25
Visual
disturbances from local anesthetic, Sept./Oct. 210
tools, three-dimensional, aid in providing more complete
information to dental lab, July/Aug. 176
Visualization: during dental procedures, surgical telescopes
enhance, Nov./Dec. 264
Vital signs: and patient safety during dental procedures,
July/Aug. 194
Vitremmer Luting: clinical applications, May/June 117
Volcanoes: predicting, Mar./Apr. 81

W

W. and H. Topair handpiece performance: effect of
autoclaving on, July/Aug. 187
Warfare: salad, Jan./Feb. 27
Washington pilot program: to increase Medicaid child dental
services, Mar./Apr. 79

Water

- excess, removal method, effect on resin bond strength, May/June 155
- tap, *vs.* low-fat milk for temporary storage of avulsed teeth, Mar./Apr. 84

Waterlines: dental unit, bacteria in, Mar./Apr. 66

Wear

- abrasive, in posterior composite resin restorations, reducing, Sept./Oct. 215
- resistance of composite resin enhanced by increased curing, Jan./Feb. 40
- tooth, dentin-bonded ceramic crowns for patients with, May/June 127

Weight: low birth, and periodontal disease in expectant mothers, Jan./Feb. 14; Nov./Dec. 290

Weightlifters: muscle dysmorphia in, July/Aug. 182

Whisperjet KCP, July/Aug. 168

Whitening dentifrice: benefits of, July/Aug. 177

Wire-reinforced pontic: for immediate replacement of missing anterior tooth, July/Aug. 174

Workers: dental, immediate type I hypersensitivity to latex in, May/June 143

Working length: digital radiography for estimation of, Jan./Feb. 34

Workload: and service capacity, Sept./Oct. 231

World Wide Web, Mar./Apr. 77

X

Xerostomia: effect of synthetic saliva substitute on, Nov./Dec. 289

Xylene toxicity: during endodontic retreatment, Sept./Oct. 234

Y

YAG laser

Er: (*see* Er:YAG laser)

Nd: (*see* Nd:YAG laser)

Yeasts: and denture stomatitis, May/June 146

Z

Z100, Sept./Oct. 216

mechanical properties and flow of, Sept./Oct. 240

not linked to periodontal damage, Sept./Oct. 248

Zinc phosphate cement: post retention with, Jan./Feb. 51
